At **Camp Minikani**, we provide education and community programs that:

Educate students and our community to understand our environment and our connection to our ecosystem.

Engage people to actively use our natural spaces and adopt sustainable practices in their everyday lives.

Empower future generations to embrace nature and all that it has to offer.

CAMP MINIKANI ENVIRONMENTAL EDUCATION

**TAKING
EDUCATION
OUTDOORS!**

Education

Don't let four walls define a classroom! Bring your class to Camp Minikani, we offer a variety of hands-on, nature-inspired classes taught by our Environmental Education staff that will leave your kids wanting to learn more. We will work with you to incorporate our classes into your current lesson plans.

- Hands-on classes, such as Bats, Skulls and Furs, and Star Lab
- Outdoor classes, such as Wetlands Ecology, Trek, and Night Hikes

Exploration

Camp Minikani is one of the YMCA's premier summer camp sites, boasting over 150 acres of wilderness only 35 minutes away from downtown Milwaukee. We offer full use of our facilities, from our dining hall to our adventure course, as well as our cabins for overnight groups, allowing your students to get the full Minikani camping experience.

- Two archery ranges, climbing wall, and lake docks with canoes
- Central firepit for large group campfires
- 20+ heated cabins

Growth

At Camp Minikani, we are devoted to growth in mind, body, and spirit. Every child has the potential to be extraordinary, so we take the time to make sure everyone receives the fullest Minikani experience. Their time here will help to foster positive memories and friendships that last a lifetime and inspire growth.

- Fully trained and devoted staff
- Low/high ropes challenge courses designed to build teamwork skills and communication

Our job, and our passion, is to invite students to get their "hands dirty" in nature—whether that is standing in our lake learning about aquatic ecology or walking deep into our forests learning about ecosystems.
